Front-end developer

ABOUT ME

Hi there, I am a Front-end developer. I have 1+ year experience in creating SPA with React/Redux and JavaScript/TypeScript. Now I am improving my skills in this direction and expanding them with new technologies(now it's Next.js). I also plan to learn Angular in the future. I spend my leisure time with educational books(like "You Don't Know JS") and also improving my English. Open for your suggestions!
